MN TOTAL

THE LANDSCAPE OF REDD+ ALIGNED FINANCE IN CÔTE D'IVOIRE IN 2015

FCFA 16.8 BN REDD+ ALIGNED
 FCFA 84.2 BN TOTAL GREY FLOWS

KEY

PUBLIC MONEY	PRIVATE MONEY	? UNKNOWN	REDD+ ALIGNED FLOWS	REDD+ aligned activities are those that clearly contribute to reducing deforestation drivers and to enhancing and protecting forest cover.
PUBLIC FINANCIAL INTERMEDIARIES	UPSTREAM SOURCES OF FINANCE AND TRANSFERS BETWEEN ACTORS		GREY FLOWS	Grey activities are those that could contribute to maintaining and enhancing Côte d'Ivoire's forests if certain enabling conditions were in place.

Financial mapping as a key tool for NDC implementation

- Reality-check on coherence of sectoral policies and instruments with climate objectives
- Entry point for multi-sectoral and multi-stakeholder discussion on resource allocation and climate mainstreaming
- Advocacy tool for domestic and international fundraising
- Accountability and benchmarking tool
